Fact Sheet: Undergraduate level (1st cycle)

Language of Instruction:	About 70% of the undergraduate courses are taught in English.
Undergraduate Courses:	<p>Undergraduate courses are available on the website at the following link: http://www.novasbe.unl.pt/en/undergraduates/courses</p> <p>This link is only for general information: http://www.novasbe.unl.pt/en/exchange-students</p> <p>Updated information will be sent by the International Office in the Welcome Mail. Note: At Nova we have a limited number of places in each course. We are not able to guarantee that all students are placed according to their first preferences: in this way, one is advised to have alternative choices approved by the home university. We have a period of changes where students may change their options, pending availability of places. Enrolment is done online at a platform to which the student will have access with a username and password.</p>
Workload and Assessments:	<p>Workload</p> <p>Courses in the undergraduate level are full-time and are offered from Monday to Friday during working hours. Exchange students make their choice from a list of available courses for exchange students. A typical Nova SBE student takes four / five courses per semester, corresponding to about 30 ECTS credit units.</p> <p>Undergraduate courses are structured in semesters and each course has 7,5 ECTS or 4 ECTS. This implies three weekly classes of 1H30 per course, during 12 weeks. In this workload there are both theoretical and practical classes. Most courses have one practical class and two theoretical per week.</p> <p>The limit of ECTS one exchange student is allowed to enrol at is 32.</p> <p>Assessment methods</p> <p>Students' course evaluation is conducted on an individual basis, and final grades are on a scale of 0 – 20. Academic courses approval requires that the final grade is equal to or more than 10.</p> <p>Each course's evaluation can be based on the student's participation in class, coursework, classwork, tests, examinations and other evaluation, according to rules defined by the Course Instructor at the beginning of the academic period, in the course syllabus.</p> <p>The weight of all individual in-class written work cannot be less than 50%. The weight of the exam's grade cannot be less than 30% and not more than 70%.</p>

Fact Sheet: Undergraduate level (1st cycle)

For each course, **the examination is offered twice**. The first examination period extends over three weeks while the second lasts one week only. Be aware that **no more than two examinations** can be taken in the second exam period (**resit**) and you can only take them if you failed the first exam or you missed it. Only note that the evaluation method in the second assessment may not take in consideration the previous work developed during the semester – it will worth 100% (each student must contact the Professor of the course to clarify this issue). Students must enrol online.

Improving a Grade – Undergraduate Courses

If necessary, students are allowed to improve a grade. This is limited to **one** grade improvement exam per semester. There is no possibility to enrol in a course for a second time, once a student obtains the credits of a course, by obtaining a grade of at least 10. The student must keep the grade obtained in the course, which will be recorded on the Transcript of Records unless there is a grade review by the faculty. Students must enrol for the exam at the Bursary Office 4 days prior to the exam date, and pay the enrolment fee (15€).

Grading scale

We use a 0-20 scale to grade students, following the Portuguese convention. The top grade, 20 points, distinguishes an outstanding performance and is very rarely awarded. The bottom grade, 0 points, is awarded only to absolutely disastrous performances. Note also that the fail range is from 0 to 9; hence, 10 points is the threshold to pass. You can compare our scale with the ECTS grading scale in Table 1.

Table 1: Grading scales at Nova SBE

ECTS scale	% of successful students normally achieving the grade	Definition
A	10	EXCELLENT – outstanding performance with only minor errors
B	25	VERY GOOD – above the average standard but with some errors
C	30	GOOD – generally sound work with a number of notable errors
D	25	SATISFACTORY – fair but with significant shortcomings
E	10	SUFFICIENT – performance meets the minimum criteria
F	-	FAIL – some more work or considerable work required before the credit can be awarded
